Omer Marquez

Web Developer | Engineer

Profile

Proficient Web Developer with +2 years of experience, adept in all stages of advanced web development for big projects and complex codebases. Bringing forth expertise in design, installation, testing / debugging and maintenance of web applications and cloud services, equipped with a diverse and up to date skill-set.

Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team, with experience working remotely to bring the best to the software industry.

Employment History

Full Stack Web Developer at Servibird S.A., Panamá (remote position).
February 2021 – May 2022.

- Planned, developed, tested, deployed, and maintained web applications and microservices following tight schedules.
- Provided effective troubleshooting and remediation for web applications and cloud services on time.
- Use of AWS cloud services like Amplify, Elastic Beanstalk, EC2, and S3, as well as Firebase to solve complex problems.
- Improved development time up to 30%, bringing projects back on schedule.
- Worked on extensive and complex front-end codebase using React, Ant Design and Next.js, as well as back-end codebases using Node.js, with Express.js for APIs implementing TypeScript.

Full Stack Web Developer at Nova Kaelum, Venezuela.
June 2019 – January 2021.

- Involved in several aspects of design and development of web applications, offering alternatives and solutions when necessary.
- Managed multiples front-end projects using React, Material UI and Redux, in addition to back-end projects using Node.js, Express.js.
- Solved multiple problems for core aspects through effective communication and implementation of best practices.
- Managed Source Control tasks using Git, such as reversing commits and solving merge conflicts, along with working with drafts.

Education

Electronic Engineering, Universidad Dr. Rafael Belloso Chacín, Venezuela
September 2017 – December 2021.

Courses

Computer Science: Algorithms, Theory, and Machines. Coursera.
May 2019 – June 2019.
